REASONS FOR ALLOWANCE

Claims 1-20 are allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. McIntosh '861 shows a fan drive apparatus including the bladder 44. Spridco '626 shows a centrifugal clutch actuated by fluid pressure. Heidenreich et al. '517 shows a torque limiting clutch. Berger et al. '215 shows a speed limiting clutch which allows slippage at high speed. Makino '831 (JP) shows a centrifugal clutch.

The following is an examiner's statement of reasons for allowance:

None of the prior art of record shows or suggests a regulated torque limiting clutch including the drive flange, end plate, interleaved friction and separator plates, pressure plate, spring assembly and torque regulating plate arranged together in the manner set forth in claim 1, and particularly wherein the torque regulating plate and the end plate define a cavity containing liquid which is forced radially and axially outwardly in response to centrifugal force in order to change the torque characteristic of the clutch.

Nor does the prior art of record show or suggest a regulated torque limiting clutch including the drive flange, pressure plate, interleaved friction and separator plates, spring assembly and torque regulating plate arranged together and in combination with the centrifugally actuated mechanism which modifies the spring force as a function of rotational speed as set forth in claim 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard M. Lorence whose telephone number is (703) 308-3062. The examiner can normally be reached on Mondays through Fridays from 9:00AM to 5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles A. Marmor can be reached on (703) 308-0830. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
